Certificates

NPTEL+ Workshop Certification
Data Science and Machine Learning

NPTEL Online Certification
Programming In java With Score 81%

Projects

Aaryavart – E-learning Platform Analytics
- Designed backend using MySQL for tracking learner behaviour and quiz scores.
- Analyzed engagement data to identify trends and support content improvements.

Vanya Safaris – Sales Analytics Dashboard
- Created Power BI dashboards visualizing revenue trends, monthly bookings, and customer interest by tour type.
- Cleaned and transformed raw Excel datasets using DAX and Power Query.

BMCC Website Replica – Single Page App
- Built a responsive AngularJS-based academic website prototype simulating college navigation and UI.

IOT - Air Quality Index Monitoring
- Developed an IoT-based Air Quality Identifier that uses sensors to monitor environmental air conditions and detect changes in air quality in real time.

Healthcare Management System using Java swing,JDBC and MySQL
- Developed a Healthcare Management System using Java Swing, JDBC, and MySQL to manage patient records, appointments, and healthcare information efficiently.

Technical Skills

Languages & Tools
Python, MySQL, Power BI, Git, Excel

Other Skills
C, C++, DBMS, HTML/CSS, JavaScript (basic), AngularJS, Node

Concepts
Data Cleaning,
Exploratory Data Analysis (EDA),
Data Visualization,
Dashboard Design

Soft Skills

- Analytical Thinking
- Collaboration
- Creative Problem Solving
- Time Management
- Communication

Languages

Marathi
Native

Hindi
Fluent

English
Intermediate

Hobbies & Interests

- Data Storytelling
- Poetry
- Reading Tech Blogs
- Exploring AI Tools
- Creative Writing
- Travelling
